EDUCATION

2021 - 2023

DASMESH PUBLIC SCHOOL

- 95.8% in CBSE 12th Board Examination

2023 - 2027

CHITKARA UNIVERSITY

- B.tech in Computer Science
- CGPA: 9.4 / 10.0

TECHNICAL SKILLS

- HTML , CSS , JS
- C/C++ , Java
- Spring Boot
- Dsa (Learning)
- SQL
- Git/Github
- Node.Js , MongoDB

MINI PROJECTS

- BMI Calculator
- Student Attendance Tracker
- Weather App
- To - Do List

PROFILE

I am a third-year B.Tech student in Computer Science Engineering at Chitkara University. I have a strong interest in full-stack development and consistently build projects to strengthen my problem-solving and programming skills. I aim to apply my knowledge in real-world applications and contribute meaningfully to technical teams while continuing to grow in the software development field

PROJECTS

URBAN ELEGANCE - E-COMMERCE WEBSITE

- Developed a fully functional e-commerce website that included clothing display, add-to-cart functionality, wishlist, payment option, and a donation page.
- Contributed by designing the login, about us, and product display pages, and built the donation feature to allow users to contribute for a social cause.

CAMPUS2CAREER - ONLINE INTERNSHIP PORTAL

- Designed and developed a role-based internship management system with secure authentication and dynamic user redirection for students and companies.
- Enabled companies to post, review, shortlist, and manage internship applications, while allowing students to explore and apply for available opportunities through an intuitive and responsive interface.

MENTAL HEALTH QUIZ WEBSITE

- Built a Mental Health Quiz website where users answer 10 questions to receive a basic analysis of their mental well-being.
- Collaborated as a team and contributed primarily to the layout design and CSS styling of the project.

EMPLOYEE MANAGEMENT SYSTEM

- Developed a role-based Employee Management System using Spring Boot and JWT authentication, enabling secure access control for Admin and Employee modules.
- Implemented comprehensive employee management features including CRUD operations, attendance tracking, performance reports, and automated working-hour analytics with remark generation.
